

McMillan Road & Mitchell Street Intersection

Stop signs to be removed on McMillan Road in September

Ada County Highway District

WHAT'S AHEAD?

- **The stop signs will be removed approximately September 27, 2010 from McMillan. The stop sign at Mitchell will remain in place.**
- Informational signs will be placed about two weeks ahead of the conversion to alert drivers. Additional signs will be in place for at least one month after the conversion to alert drivers of the change in traffic control.
- ACHD will monitor the intersection after the change to evaluate how it performs.
- ACHD will ask the Boise Police Department to observe the intersection after the change.

QUESTIONS?

The Ada County Highway District (ACHD) is planning a change to the intersection of McMillan Road and Mitchell Street. **The change will remove the stop signs on McMillan, leaving the intersection controlled by the stop sign on Mitchell.** The T-intersection is currently all-way stop-controlled.

Why change the current intersection configuration?

The change is due to the reduction in the number of vehicles using Mitchell Street since the Maple Grove Extension project was opened in 2007.

Earlier this year ACHD examined whether all-way stop-control was still needed at this intersection. The existing conditions and impacts of removing the stop signs on McMillan Road were analyzed, looking closely at intersection delay and safety.

While traffic volumes on McMillan have remained fairly constant, the volumes on Mitchell have dropped roughly 50% since the new connection.
